<tr>
<th>Process</th>
<th>Meeting Schedule</th>
<th>Committees will be formed (each committee will include at least one stakeholder representing each EMS discipline). Committees will investigate system models, financing and technology issues. Committee work will be shared with all members during large Workgroup meetings. The System Redesign Workgroup may also have special presentations from SMEs. Schedule confirmed through 2020</th>

<tbody>
<tr>
<td>Guiding Principles</td>
<td>The Workgroup had a robust discussion about possible guiding principles to inform policy decisions. It was agreed that the Workgroup would model Alameda County Vision 2026 incorporating the following Operating Principles:  - Collaboration  - Fiscal Stewardship  - Equity  - Innovation  - Sustainability  - Access  In addition, the Workgroup established the following EMS System Redesign Guiding Principles:  - Preserving a high and equitable level of emergency and non-emergency medical response throughout the County.  - Producing a sustainable system that is cost-effective and fiscally responsible while preserving a high quality of patient care.  - Supporting the current and future EMS workforce throughout the redesign process, at the same time mandating individual accountability and professionalism from all EMS personnel.  - Multi-agency collaboration throughout the process.  - Ensuring the right resource to the right call (Right care/right time/right place).  - Embracing innovation.  - Cognizant of technology throughout deliberations. Leveraging technology.</td>
<td>Committees will be formed at the November meeting. Discussion about committee structure at October meeting. Send out calendar invitations to those who signed attendance sheet. Vision 2026 guiding principles were approved. Specific guiding principles for workgroup were established. This will be a long process – we will keep going back to the principles and check to make sure we are on track throughout the process.</td>
</tr>
</tbody>
</table>
- Include disaster preparedness considerations in recommendations.
- Equity and transparency throughout to build and reinforce trust.
- Explore healthcare alternatives, different systems, building on assess and refer.

<tbody>
<tr>
<td>5.</td>
<td>Round Robin</td>
<td>Budget cycles one to two-year cycles. Work with the stakeholders to make sure costly equipment changes take this into account. Utilizing IT components to change the way patients are treated on scene. Look at IT tools on the horizon. Focus groups could be used to ensure community participation. Should explore separate feedback mechanisms, possibly surveys?</td>
<td>These ideas were put in the “Parking Lot” and will be explored as we move forward.</td>
</tr>
